Victoria 127

USB2.0 fingerprint 2.5" HDD enclosure

Dimensions: 80 x 162 x 24 mm (WxDxH)

Weight: Approximately 120g – Without HDD

TAIWAN PATENT NO. M263581

GERMANY PATENT NO. 20 2005 012 068.5

JAPAN PATENT NO. 3115081

Introduction

Victoria 127, USB2.0 fingerprint authentication 2.5"HDD, integrates different high technology to let you enjoy "**User Authentication**" and "**Security data storage**" functions. Victoria 127 contains fingerprint authentication technology; you never need to remember hundreds of your password or ID number when you are working on computer. Your fingerprint will replace any passwords or IDs easily.

Equips fingerprint authentication will protect your important and private data security. Without your fingerprint, no one can read any data that has been encrypted from Victoria 127. Even though others take the HDD out, they still cannot read the files that have been encrypted because of our advance "**Hardware-like**" and software encryption/decryption technology.

Moreover, Victoria 127 still combines some other software features that let users to enjoy the benefits of fingerprint authentication technology. Victoria 127 is not only a fingerprint protective HDD but also a fingerprint authentication reader for your secret and convenient life.

Features

- Convert USB fingerprint storage device into virtual notebook application software bundled.
- Fingerprint authentication for HDD data access. Up to 10 sets fingerprint data can be saved in this system.
- Advanced hi-technology One-Swipe fingerprint sensor bar design
