

Automate your attendance

TimeLine 100

Time Attendance RFID Card System

It is time to scrap the outdated manual punch card system and adopt an efficient time attendance system with the TimeLine 100, a card system with a difference, specifically designed for office use. Simple to install and manage, the TimeLine 100 offers large storage capacity which is able to match a larger office requirement especially when paired with the TCMS V2, a Windows-based time attendance software complete with various reports for attendance management. On top of this, the TimeLine 100 easily integrates with other FingerTec terminals in one centralized system as long as they have a card feature, allowing for customization within a workplace.

Supersized Capacity
Get up to 10,000 card templates and 30,000 transaction logs – more than enough to fulfill the requirements of an SME.

Easy Data Management
All you need is a USB flash disk to transfer transaction logs to your computer. It is that easy!

Workcodes
Let your staff experience more independence by reporting their whereabouts via our workcodes feature.

Manage Your Data Easily
Administration is easy with the bundled software! FingerTec's TCMS software allows you to generate reports, monitor attendance and integrate FingerTec with a third party system

Value for Money
This model was designed to be economical so that you are able to implement FingerTec solutions at a lower cost. We believe that when it comes to security, there should be no compromise.

User-Friendliness
The TimeLine 100 is not only easy to install, it is also comprehensive in its user-friendliness.

Combine Your Verification Methods
Opt for the combination of verification methods to secure your workplace further. Choose the card and password verification with the TimeLine 100 for tighter security.

Short Message Display
Alert your staff by personalizing a short message to be displayed at the terminal when they verify.
